

# RJB ELECTRICAL Contractor

Welcome to the **RJB Electrical Website!**

**"Why have customers been coming to us for 25 years? Because they can count on us.  
We work hard at building a reputation for integrity and quality!"** Richard J. Blakeman (owner)

## About Us

**RJB Electrical** is a full service business with extensive experience in the fields of Residential, Commercial, and Industrial electrical contracting. We are affordable and dependable with a strong history of professionalism, safe work practices, quality service and reliability. We are dedicated to completing each job to the complete satisfaction of every client.

Founded in 1984, **RJB Electrical Contractor** has served the **Los Angeles and Orange County** areas for over 25 years. We are proud to be a family owned and operated full service contractor. As a commercial, industrial, and residential contractor we move in a variety of different arenas, for example we service most types of business, condominium and apartment complexes, and single family homes. We have a proven ability to complete any project regardless of size and complexity. We have long standing working relationships with General Contractors and a proven track record for completing jobs both on time and on budget.
